School fees and books**Money for books**

The schools in the Netherlands are funded by the government. Each school receives a fee based on the number and type of pupils and the type of education. This allowance is € 321.88 per pupil. This money covers the basic package.

Voluntary contribution towards school fees

We would like to offer the pupils more than the basic package.

There are costs associated with these activities and facilities. These costs are not covered by the government.

These school fees are voluntary, but we think it is important for children to participate in these activities. We take care of this. The costs are detailed in the school fees agreement.

We do our best to keep the fees as low as possible.

The amount of your contribution is evaluated annually in the MR.

Mandatory contribution

A mandatory contribution for materials and/or work clothing for personal use applies to seniors taking part in the hospitality, services, logistics, technology and ecological sectors.

What else do you need?

- Pencil case with pens, pencil, coloured pencils, eraser and sharpener.
- Geo triangle or small ruler.
- 23-ring file with squared and lined paper.
- Gym clothes and sneakers with white soles.
- Agenda (you can also use the digital calendar on your computer or phone)
- Notebook, tablet or laptop (should this cause problems, please contact our financial administration, Daniëlle Stijnman 036 - 5336194)

Paying school fees

The invoice will be sent in October. This must be paid before the due date.

The invoice explains how you can pay in instalments.

Payment arrangement

If payment of the school fees causes problems for you, please contact our financial administration, Daniëlle Stijnman. She will look for a solution together with you. Phone number 036 - 533 6194.

What is the importance of the activities paid for by school fees?

- The school children can use a locker for free. A deposit of € 12.50 is needed for the locker key. You will get this deposit back at the end of your son/daughter's time at school if both keys are returned (extra keys costs € 12.50).
We think it is important that pupils have a locker so that they can always store their valuables safely. It teaches them to take responsibility for their things.
- School trips are part of the school programme. We think it is important that pupils also learn outside of school, in the 'real world'. These trips are important activities that take place outside of school. The travel costs of school trips are included in the trip amount.
- The children do a lot of digital work at school. But paper copies are regularly made for, for example, the portfolio or a project. Copy credit can be added to the school id card. Copying costs for teaching materials are paid by the school. New pupils can use this from the end of September (when they get their school id card).
- School camp/work week: Due to corona, students of all grades go on school camp/work week. The school camps of the first classes are intended to get to know each other and the mentors. During this week the students learn to be responsible for themselves and for the group. The theme this week is collaboration. The students do many joint activities. During the school camp we also see where we need to support the students extra in the area of independence and self-reliance. In year 2, the school camp is all about working together and learning from each other.
A working week is organized in the orientation year and the sector year. During this week, sector-related activities are done. The school pays €100 per student (from NPO funds).
- Voluntary Parent Contribution: this contribution is used for fun activities for the pupils, such as school parties, festivities around the holiday periods and mentoring activities.
